

Directors Plan To Expand Facilities Of Hospital Here

The board of directors of the Tahoe Forest Hospital have been holding a series of special meetings recently to consider expanding hospital facilities to meet the increasing needs of the community.

The board employed the architect firm of Cox & Liske of Sacramento to immediately begin planning for the expansion program. This firm completed a master plan for expansion in 1957, but many changes are indicated to bring the master plan in line with current demands of the patient care program, Administrator John J. McGlade pointed out.

The medical staff is surveying the present facilities, and will submit a report to the board of directors covering the present and future requirements of the hospital based on past usage, and anticipated growth, McGlade said.

Structural changes are also required to conform to the requirements of various state agencies, and this team will be included in the planning.

The board of directors is giving serious consideration to a report issued by the Department of Health, Education and Welfare, Washington, D. C., covering the feasibility of including a shelter area which would be protected from radioactive fallout. The report stated that such a facility could be incorporated in new construction for an estimated increase of per cent in total building cost. This protected area would permit the operation of the hospital to continue in the event of nuclear attack, with maximum efficiency and safety to patients and personnel.

The building will be 100 feet across the front and 60 feet deep and will occupy, in part, the former location of the Gateway Garage, which was destroyed by fire two years ago.

Three of the new offices have been leased, Joseph said, and there are several applications for the fourth. Among others, the Sierra Sun and Truckee Republican plans to utilize a portion of the new building sometime in the early spring.

Tom Hoffman, of the Tahoe Truckee Agency said his firm has secured quarters in the new building and a modern office is being prepared for Dr. Robert Affeldt, Truckee dentist.

Post Office Moves To New Location During Weekend

Commencing tomorrow afternoon, patrons of the Truckee post office will be calling for service at the new location of the office on Bridge Street, Postmaster Richard Higgins announced.

It is the plan of the postmaster to make the change-over on Friday morning without more than the absolute necessity for service delay.

The new office was recently completed by Barak Wright, local contractor for owner Harold P. Norton of San Francisco who has leased the property to the post office department.

The new building is modern in every respect and was designed especially for the purpose for which it will be used. It has a spacious lobby with a service department adjoining and more than adequate space for the clerks. An office for the postmaster adds to the efficiency of the structure and a parking area and loading platform are in the rear of the building for official use.

While no fanfare will mark the move into new quarters, Higgins announced that a dedication program is planned for the new future when state and federal officials will join postal executives and postmasters for the occasion. This event will be sponsored by the Truckee Donner Chamber of Commerce and will include a luncheon at Smart's for invited guests from out of town.

SUMMIT SCENE

By FRAN COUILLARD

SCENE III: Herb Caen seldom mentions the Chronicle; Dick Nolan seldom mentions the Examiner which object lesson tells us that one is not supposed to blow his own horn. Be that as it may—I will take a women's unfair advantage and blow a bit. For nigh onto 15 years Fran Couillard's Halloween shindig has been a tradition. Guess the reason is that the little girl and little boy that exists in everyone is coaxed into the open at these affairs. What man would admit that a pie eating contest is a fete that he would like to indulge in? What grown couple wouldn't get red above the neck line if you accused them of nibbling at an apple hanging from a string? What adult would admit to a yen for sticking his (or her)

and Refrigerators

face in a tub of cold water to bob for an apple? What big, grown up lady would say that she would like to braid her hair in pigtail, don a short, full skirted dress with a big blue ribbon sash, shod her feet in Mary Jane slippers, stick a sucker between her pearly teeth and revert to childhood? And there are a lot of men who like to assert their manishness by grasping in their fist a huge club, throwing an animal skin over their pale shoulder, dangle a golden hoop from one ear and look for a damsel to drag in a cave. But they wouldn't say so.

Our years of hosting this homespun hocus pocus hath witnessed all of the above and more. Like broom dances, and hilo (going over a delicately placed pole as high as one can without knocking same loose — or going under same delicately placed pole). Like blowing glass ashtrays with a sippin' straw across a highly polished floor, for to win means a bottle of champagne.

So join us on October 28 on a Saturday evening and let your imagination run its gamut. For there will be a prize for the prettiest costume, one for the zaniest, one for the most original. But don't let the lack of a costume keep you away from the sidelines can be just as much fun as can the

middle of the hubbub. I remember that last year Dorothy Cannon was a charming chanteuse in polished green satin complete with beak and red wattle; and Dale was an Indian maiden—and Pete DeWitt was a pirate, and Betty Aro was a Peter Pan, and we had Alice in Wonderland — and I was a horse (don't laugh). I really did it on purpose. And at midnight we'll have a snack. So we'll be seeing you.

Our Cisco Saga must go by the boards this week. We haven't had time to make the trip westward. Some of our westward friends called on us, however. Wonder what became of Herste Jones and Dolly and Lou DuFour? Sunday afternoon we found out. The friendly three are living at Gold Run (between trips and journeys). Last year 'twas an extended European trip—this coming month of November will find them in South America. And Dolly delighted us with her version of Tom Dooley which is a fawn she has raised on the bottle. Seems like Dooley has the run of the house, seems like Dooley comes running when she whistles, and seems like Dooley doesn't know that it is a deer.

And we'll stick around our own Soda Springs for the balance of this report. And tell you that Jim Sheritt is home from the hospital again and feeling better. To tell you that the various ski clubs that have winter homes around this area are working like squirrels, packing away their gleanings for the white gold season ahead. And that our Saturday nights are already beginning to take on the appearance of ski season.

And if there is anything that makes us disturbed is the mention of the coming ski season. Because this whole summer has been a continuous season with hundreds of workmen in the area. And when the bosses of the construction outfits say "we'll be with you until the snow flies" — and we realize that as soon as we close our doors to their friendly traffic and open the portals to our skiing friends—we haven't had anytime in the interim to go clam digging.

But it HAS been an experience living with explosions all summer—and if you want to precipitate an explosion—put a cake in the oven. The ground in these here parts heaves and grumbles like some kind of a gigantic under-ground tide. Our TV's go side-wise and crosswise—if they come in at all. The power goes off as patrol groups search and shake their heads for two and three hours at a whack. The rocks fly through roofs and paved surfaces wiggle and crack. And the booms go merrily on whilst the crews close to the scenes of noisy action crawl under their heavy equipment and watch the rocks rain from heaven. Giant sloths with bright eyes crawl over the mountains at night — and before that the new highway could be traced by burning lines that were the despair of the forest service.

But everything has its compensation—and we can truthfully say that we have never catered to a nicer bunch of fellers. Even if they route us out at 4 a. m. And find us stuffing the hungry maws of lunch pails at midnight. And we wonder about the unsung heroes and heroines that do the work behind the scenes as time marches on. And we hear this, if we complain — "Well, you're getting paid for it, aren't you?" Which is true — but the clearing and the blasting, and the digging and the paving isn't all there is to the creating of a new highway. The face of a whole community changes. There are the panic

stricken who believe that a by-passing means the end of everything—even though statistics say there is recovery in a three year period). There are the optimistic who look for more property to hoard, in their belief that the by-passing of a recreational area will make it the Pocket Full of Recreation that we have spoken of. And there are the tired, tired ones that have always dreamed of a "year round business" who—now that they have it—walk around in a tired trance with circles under their eyes. But we have made a lot of new friends — and added materially to the community's growth for many who came to dig — prepare to dig in and stay. (Haven't we always said that if you stay for a year in this rarified attitude that you'll remain or wish that you had?)

So next week — we'll continue our westward trek and introduce you to some more new neighbors as we try to find our old neighbors in this busy, busy time.

Halloween witches, goblins and pumpkin lanterns are being readied for Saturday, October 28 at the Kings Beach School for their annual Halloween carnival with Ceta and Harry Hooper as chairmen.

This event is the only real fundraising for the Teachers-Parents Association and all members of the TPA and friends are urged to participate. Donations of cake, candy, pie, cupcakes and cookies, giving of white elephants, comic books, old hats, helping in the kitchen, booths, decoration or cleanup, are some of the many opportunities to serve with the chairmen.

Hot dinner will be served in the evening. Hot chili, beans, salad, hot dogs, crackers, milk, coffee, ice cream and cake make up the menu.

Phone Ceta at Liberty 6-3877 and do your share.

Virginia Durnerin of Tahoe Vista has joined her family at Pacific Palisades for the winter. Children left earlier to enter school while Virginia remained to close their Villa Vista Resort for the winter.

Joe and Ella Rae Fulton, Bob and Estelle Molsberry, and Rev. Richard Fowler, all of Kings Beach, were Mendocino visitors, at Van Dume State Park. Skin diving and rock fishing were the pleasant pastimes of their trip. Over 200 pounds of rock fish were

caught.

Bob and Mae Critchley of Tahoe Vista had a few days vacation this past week. Visited Sacramento, Oakland and San Francisco. While in Oakland visited Bob's father, "Pop" Critchley, who is well known on the north shore. Report a wonderful time.

Edith Fisher of Menlo Park was a house guest of Louise and Otto Walter at Brockway last week.

Ted and Stella Startz of Brockway are on a motor trip to British Columbia.

Henri and Tina Gerken have closed their beauty salon for the winter and are headed for the San Mateo region. Understand Henri has patented his invention and will be busy promoting the production of the new curlers. Good luck.

week is that we will be crowning Mike Popovich as the first champion of the Shadow Valley Golf Course. He played off against Karl Kielhofer on Sunday in a 36 hole match and though they almost froze to death, they struggled through. Guess we all suspected that Mike was consistently Truckee's best golfer and now there's no disputing it. Congrats, 'champ' and may you long reign. Mike and Karl will both be presented with the first place and runner-up trophies at the big dinner-dance on the 28th along with Norma Russell, Mike Ellis and Vina Clepper. . . . Johnny Waller won his match during the week with Clarence Osburn and will now play the winner between Charles Fink and Bob Leamon. We don't know about this one until next week. . . . The winning ladies in the 10 game 'epileptic' — whoops! — rather, eclectic, will also get their awards that same evening. . . . we have made arrangements to present the junior winners, Doug Doolittle and runner-up Randy Russell, with their trophies at a high school rally on October 27. . . . Looks as though the cold weather Sunday scared off the Lions who were to have a tournament as well as the Firpo, Cozzi, Moretta match we've been looking forward to but, maybe later. . . . Weather permitting, we are off on Friday for a hunting trip to Wyoming so I won't be

DONNER DOINGS

By VIRGINIA O'BEAR

Since this is fire prevention week, I wonder how many of us will take a double check on our homes and businesses to see if everything is safe. In Sacramento, firemen are going from door to door checking homes for fire hazards. Most of us should have a clean-up day before the heavy snows come then we won't have to worry until spring, that is unless some are careless with poor wiring, old newspapers and dirty rags around. These seem to cause the most concern. Each family should have their own clean-up campaign with a fire drill if they have youngsters.

While I was in Sacramento on business this week, I accidentally met Eleanore Capel Fulcher on the street. It is a small world, we decided but both of us were happy to chat a bit. Eleanore looks great and says she likes Sacramento fairly well. Of course all of us miss her here at Donner Lake and hope she moves back some day. While there, I also had lunch with Joanie Conley, another former Donnerite. She is with Crocker

Anglo Bank. Said to tell everyone hello.

Dollie and Virgil Harris made a hurried business trip to Donner Lake a few days ago but I missed seeing Dollie as I was in Sacramento that day. I hope she can come up again soon as a lot of us would like to see her. She and Virgil are selling their Donner home so it looks like they will not be coming back for awhile.

I had an enjoyable visit with Nancy Brodie the other day, via telephone, of course. Nancy said they are a two-car family once again and that she will be coming over to Donner to see us soon. They bought a home over at Tahoe at Dollar Point. Dr. Brodie had to be nearer his office which is over there so they had to leave Donner Lake.

Chuck and Wilma Snow will be leaving their Donner home soon and will again spend the winter at Big Chief. Wilma says they like it over there on Truckee river but they will be back again this spring.

Another modern motel is going in at Donner Lake and is being put in by Harry Wieler. The builders are coming right along with it even though it is not on lake frontage.

Dr. and Mrs. Ray Wiser and sons left this week for Montana for a vacation and hunting trip. Their daughters will visit with Muriel's parents in Gridley, Mr. and Mrs. Alden Hughes. Muriel said they look forward to this trip every year because it gives them a chance to really relax and since all of the doctors patients have been notified, he can really enjoy his hunting trip, too. They will return around the first of November.

Martha Pankoke's sister who has been visiting several weeks has decided to go home by jet this week. She is Laurene Barnstable from Waukegan and since she met all of the characters at Donner Lake, she will probably never forget us.

GOLDEN MOMENTS

In California history—once the good news of statehood reached the Golden Gate, the town celebrated all night!

In California life—today, light, bright beer makes good news, too. Beer means enjoyment. . . . prosperity. Last year brewers employed over 7,200 Californians and added to the income of thousands in other industries—another reason why beer means better living for all in the "Golden State."

Linne E. Nelson

DISTRICT GOVERNOR VISITS LAKE ROTARY

TAHOE CITY—Linne E. 'Nels' Nelson of Bijou, governor of Rotary International District No. 519, paid his official visit to the Rotary Club of Tahoe City at the Tahoe Inn last Tuesday evening. In addition to receiving reports of the various club committees outlining the organization's program for the year, District Governor Nelson was the featured speaker of the dinner meeting.

Nelson urged local Rotarians to follow the lead of Rotary International President Joseph A. Abey, whose slogan for the year is A-C-T: A for action, C for communication and T for test for leadership. He spoke of the many opportunities the usual town offers for Rotarians to give service to their community and urged all members to follow the Rotary 4-Way Test in conducting their business.

CORBIN WILL SPEAK AT MEETING OF PTA

TAHOE CITY—Principal speaker at the next meeting of the Tahoe Lake PTA will be School Superintendent John Corbin who will talk on the effect of the population expansion in the area in relation to the growth of the schools and the planned physical expansion of the present set-up. The meeting will be held at the Tahoe Lake School on Wednesday, October 18 at 8 p. m.
In charge of making arrangements is program chairman Ned Long.

SIERRA PACIFIC

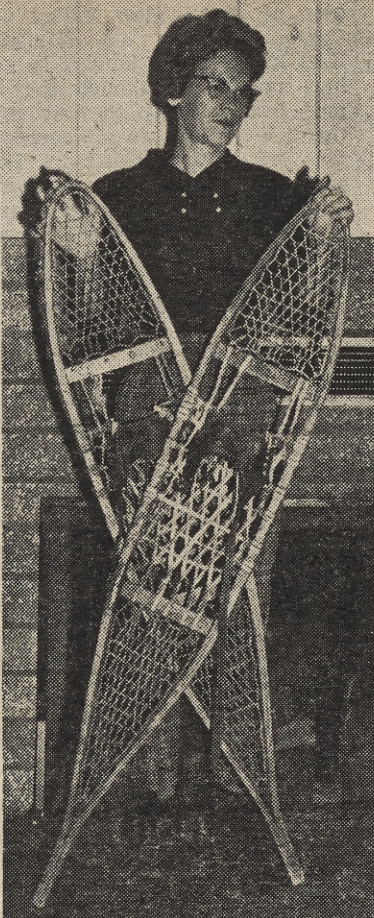

(Continued from Page 1)
to be paid for the lease at the rate of \$10,000 a year.

As part of the lease agreement, Sierra Pacific would rehabilitate the electrical distribution system within three years to maintain adequate and dependable service. At the end of the lease period the Truckee Public Utility District could take over and operate the system again after paying a fair value for improvements and additions that had been made, or could sell the equity in the system it might have at that time to Sierra Pacific.

Operation of the street light service now provided by the utility district would be a matter for negotiation with the district if either the purchase or lease offer is accepted.

Fletcher assured the directors that if Sierra Pacific bought the electric system Truckee customers would benefit by the same good maintenance and service given to customers in the rest of the company's system, which includes all of Lake Tahoe, Donner Lake and eastern Nevada, Fletcher said.

southern edge of Sacramento. He plans to have a temporary church erected in the near future and is scheduled to have at least four classes of a school opened by September, as well as a new church and parish house. In the meantime he will conduct services in a temporary location starting Sunday.

The departing priest has made an enviable reputation since coming here. He has doubled the capacity of the Tahoe City, Kings Beach and Truckee churches and has built a new one at Squaw Valley.

Father O'Neill has been active in community affairs both here and at Lake Tahoe and his leaving will be regretted by his legion of friends, both Catholic and non-Catholic.

Father Coffey was expected here today and will officiate at his first mass as a pastor Sunday. Father James Mulligan who has been assistant pastor here, is leaving for Gridley, it was learned Monday. No assistant will be appointed immediately for the local parish.

hoe municipal court for seven years, and was instrumental in the beginnings of the first department, the Commons, the community hall and the public utility district. He is still active with the public utility district and is presently serving as manager.

Mrs. Vernon is a well-known chronicler of Tahoe events having been a correspondent for many newspapers in the area and is also a noted poet and author. Perhaps the best-known of her published works are "Sierra Trails," "Voices From the Mt. Top" and "Through the Rainbow Gate" which she also illustrated. Her writings are under her maiden name of Ethel Joslin. Her newest effort, due to be published soon, is titled "Valley of the Stars."

The Vernons are parents of two daughters, Mrs. Theodore Montag of Stead Air Force Base and Mrs. Harold Parr of Tahoe City.
